Lighting	LED String Lighting
Installation Type	Freestanding with lower drop-down door
Availability	Built to Order – Limited Stock

3. DIMENSIONS

4. CONSTRUCTION & ENGINEERING

The H-636 Storage is engineered specifically for commercial cigar environments where floor space is limited, but consistent humidity retention, long-term structural durability, and premium presentation are critical.

Each cabinet is handcrafted in Pennsylvania using furniture-grade hardwood construction and commercial-grade assembly methods designed for daily retail use.

5. INTERIOR MATERIALS

Available with adjustable Spanish cedar display racks designed to support proper cigar aging and humidity stabilization.

- Maintains consistent humidity levels
- Traditional cigar aging compatibility
- Resistance to moisture-related warping
- Improved airflow around displayed cigars

6. HUMIDIFICATION CONFIGURATION

Accurate, reliable, and powerful, HUBBLE is engineered to maintain stable humidity in cigar humidors with fast recovery and precise digital control. The combination of high airflow, adjustable settings, and remote monitoring makes it ideal for demanding commercial environments. HUBBLE and humidification components sold exclusively with purchase of Newsham's humidors.

7. PERFORMANCE CHARACTERISTICS

Humidity Management	Newsham's Humidification System with HUBBLE Humidifier and digital hygrometer
Display Visibility	Tempered glass merchandising system
Inventory Capacity	Approximately 20 cigar boxes in display area Plus ~ 6 additional boxes in humidified storage
Commercial Use	Engineered for daily retail operation
